

**IPC Regional Conferences:**  
**Great Learning, Great Teaching, Great Fun**

**Singapore – 8<sup>th</sup> & 9<sup>th</sup> March 2010**  
**Qatar – 30<sup>th</sup> April & 1<sup>st</sup> May 2010**

These regional conferences are aimed at all IPC Practitioners i.e. teachers, coordinators and assistants. The conferences will take a workshop approach with a focus on practical ideas and the sharing of best practice between IPC member schools and non IPC schools who are interested in finding out more about the curriculum.

Three separate workshops will provide practical advice for helping children to develop researching skills, recording skills and helping teachers to effectively and creatively resource the IPC units of work. Each workshop will address the IPC Early Years programme as well as the IPC Main Programme. All delegates will have the chance to participate in all three workshops throughout the two days of the conference and can choose a 'route' through the workshops (beginning, developing or mastering) depending on their IPC experience and knowledge.

In addition to this there will be an opportunity to listen to and ask questions to members of the IPC team as well as the chance to find out more about the host schools IPC learning journey.

As with all IPC events there will be plenty of time to meet new and existing colleagues from around the globe, share experiences and take away ideas to continue focusing on great learning, great teaching and great fun at your school.
